

InetSoft's flagship software product is **Style Intelligence™**, an enterprise software application that uses a visualization-driven approach to address reporting, analysis, and dashboard needs, in a unified, easy-to-use package. It includes:

Style Scope™ - easy-to-use, interactive dashboard software for visualization of data and charts in a browser

Style Report Enterprise™ – for creating production reports and interactive web-based reports

Feature	Style Scope	Style Report Enterprise	Style Intelligence
Data Access			
Connect to relational databases (JDBC), XML, Web services (SOAP), Java objects (POJO), EJBs, text files, Microsoft Excel, SAP, PeopleSoft, JD Edwards, salesforce.com, Hadoop/Hive, and Siebel CRM	Y	Y	Y
Custom data access adapter	Y	Y	Y
Custom data access to Google Analytics, Google Adwords, and Intuit QuickBooks	Y	N/A	Y
Graphical query builder	Y	Y	Y
Private and global shared queries	Y	Y	Y
Live editing with data	Y	Y	Y
Data model, query and Data Blocks	Y	Y	Y
Data mashup across multiple source data objects	Y	Y	Y
Security control on data row and column level	Y	Y	Y
ERWin data model importer	Y	Y	Y
Professional data modeling application	Y	Y	Y
Database write back	Y	N/A	Y
Connectivity to OLAP cubes (such as Microsoft SQL Server Analysis Services, Hyperion ESSbase, Oracle OLAP, and SAP NetWeaver)	N/A	N/A	Y
Data Mashup			
Ad hoc data blocks for what-if simulations	Y	Y	Y
Advanced transformation, join and set operations	Y	Y	Y
Data block assembly as data blocks	Y	Y	Y
Drag-and-drop spreadsheet-like worksheet UI	Y	Y	Y
Mirrored data block for multi-use	Y	Y	Y
Multi-source cross-domain data block mashup	Y	Y	Y
Web-based, zero-client UI for end users	Y	N/A	Y
Business Logic Embedding			
Conditional control on element visibility and other options	Y	Y	Y
Dynamic scripting using JavaScript syntax	Y	Y	Y
Highlighting on background, foreground and font	Y	Y	Y
On-export and on-print report control	N/A	Y	Y
Professional Design			
Advanced presentation - maps, images, shapes	Y	Y	Y
Charting engine is flexible and extensible	Y	Y	Y
Create reusable embeddable components	Y	Y	Y
Freehand element positioning	Y	Y	Y
Localization and internationalization to any language	Y	Y	Y
Powerful WYSIWYG drag-and-drop designer	Y	Y	Y
Rich presentation element library	Y	Y	Y
Sub-report nesting	Y	Y	Y
Word processor-like and HTML-like layout	N/A	Y	Y
Dynamic expanding table, formula table & super crosstab	N/A	Y	Y

Feature	Style Scope	Style Report Enterprise	Style Intelligence
Interactive Viewing			
Drilldown from an element to another report or URL	Y	Y	Y
Dropdown list, text fields and other form controls	Y	Y	Y
Email and print delivery	Y	Y	Y
Export to Excel, PDF, and PowerPoint	Y	Y	Y
In-place sorting, filtering, editing	Y	Y	Y
Zero client, security controlled Web portal	Y	Y	Y
Export to CSV, RTF, Postscript, Text, and SVG	N/A	Y	Y
Parameters in cascade and staging mode	N/A	Y	Y
Real time viewing or queued reports	N/A	Y	Y
Report element context menu	N/A	Y	Y
Summary/detail toggling display	N/A	Y	Y
Ad Hoc Reporting			
Intuitive, 100% Web, zero client access from portal	Y	N/A	Y
Security restrictions automatically applied	Y	N/A	Y
Aggregate, grouping, and filtering	Y	N/A	Y
End-user chart data binding options	Y	N/A	Y
Personal and shared bookmarking of chart/filter settings	Y	N/A	Y
Visualization and Analysis			
Charts, maps, and other advanced visual objects	Y	Y	Y
Drag and drop in zero client, spreadsheet like design	Y	N/A	Y
Dual purpose input/output elements	Y	N/A	Y
Gauges, thermometers, and other familiar business visual objects	Y	N/A	Y
Recursive hierarchy defined by parent and child IDs	Y	N/A	Y
Monitoring, analytic, and exploration oriented views	Y	N/A	Y
OLAP data source interaction and visualization	N/A	N/A	Y
OLAP access to MS Analysis Service, ESS based, Oracle OLAP	N/A	N/A	Y
Scalability and High Performance			
Configurable data cache	Y	Y	Y
Multi-threaded report server	Y	Y	Y
Clustered reporting service	Y	Y	Y
Concurrent report threading control	Y	Y	Y
Data access connection pools	Y	Y	Y
Data streaming and page streaming	Y	Y	Y
Resource management on file system and database	Y	Y	Y
Automatic page cache and swapping	N/A	Y	Y
Bursting and scheduled report	N/A	Y	Y
Configurable report page cache	N/A	Y	Y

Feature	Style Scope	Style Report Enterprise	Style Intelligence
Enterprise Environment			
Mobile access (iPad, iPhone, Android-based tablets and smartphones)	Y	Y	Y
Archiving and versioning	Y	Y	Y
Audit, access and error logs	Y	Y	Y
HTTPS support and encryption on PDF outputs	Y	Y	Y
Security by individual, role, group and functional module	Y	Y	Y
Security control on data cell, report, folder	Y	Y	Y
Team development environment	Y	Y	Y
User disk quota control	Y	Y	Y
Target bands and statistical measures	Y	Y	Y
Scheduler with customizable condition and actions	Y	Y	Y
Alerts for exceptions	Y	N/A	Y
Embedding and Integration			
100% Java API for data, chart, security customization	Y	Y	Y
CSS driven presentation customization	Y	Y	Y
Data binding to presentation elements dynamically	Y	Y	Y
Componentized portal	Y	Y	Y
IFrame integration for IIS, MS Share Point, and others	Y	Y	Y
Single sign-on and out-of-box LDAP integration	Y	Y	Y
Web service and SOAP architecture	Y	Y	Y
Multi-tenancy	Y	Y	Y
JSP tag library for presentation	N/A	Y	Y
